Who we are

In the summer of 2005, while the G8 met in Scotland and made promises that have yet to be kept, a people's movement was born in Edinburgh. Under the banner of "Make Poverty History" a quarter of a million people marched on Edinburgh's streets calling for an end to man-made poverty through changes to a glaringly unjust trade system and a suffocating debt burden. The following year a group of activists and organisations met to keep the spirit of those events going. Since then the Edinburgh World Justice Festival has continued to keep world justice issues on the agenda in our city. If you'd like to get involved email us at info.ewjf.org.uk
